PROFILE

Passionate and detail-oriented web and software developer with hands-on experience building applications, console-based games, and interactive websites. Skilled in designing, and developing applications using C#, .NET, Python, JavaScript, SQL, and Java. Excels at turning ideas into functional and maintainable software solutions. Strong foundation in database design, object-oriented programming, and UI/UX development. Always eager to learn new technologies and contribute to collaborative development projects.

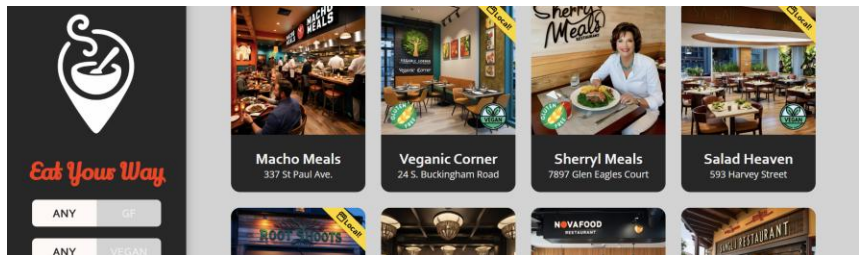

PROJECTS

THREE GOOD THINGS • NOVEMBER 2024

Developed a lightweight Python app to log three daily positive events. Implemented persistent daily tracking with visual checkmarks and historical review functionality. Focused on clean UI and intuitive user experience.

RESTAURANT FILTER WEBSITE • APRIL 2025

Built a responsive, user-friendly restaurant search and filtering website using HTML, CSS, and JavaScript. Implemented dynamic filtering and sorting to enhance usability. Applied visual design principles to create an attractive interface.

CONSOLE RPG GAME • CURRENT

Developing a .NET console RPG with persistent database-backed data using Entity Framework. Features include rooms, players, equipment, inventory, abilities, and player progression. Focused on OOP design, modular code, and scalable architecture for future expansion.
